# Mental Health First Aid

**MENTAL HEALTH FIRST AID®**

EHN is consumer-centered so we believe in the people we serve. We invest in our consumers so they can achieve specific, measurable results which is all part of our community development. Stable families mean safer neighborhoods, a more productive work force, higher contributing citizens, more successful students and an overall better quality of life for our residents.

*The Texas Department of State Health Services (DSHS) selected Emergence Health Network (EHN) as the Local Mental Health Authority (LMHA) in El Paso County. We are responsible for planning and developing policy, and coordinating and providing/developing services for individuals in the county with a mental health diagnosis or intellectual/developmental disability. EHN is one of 39 LMHA centers across Texas.*
